

Wild Oak Parent Questionnaire

Seedling School

Prior to enrollment, we will be discussing your child's current development. This is not an assessment, but a means for us to learn your child's current skills across five domains defined by *North Carolina Foundations for Early Learning and Development*:

1. Approaches to Play and Learning
2. Emotional and Social Development
3. Health and Physical Development
4. Language Development and Communication
5. Cognitive Development

Having this understanding of your child's current development will help ensure that we are providing the activities and guidance that will best nurture the growth of your child. Children grow and develop skills quickly, therefore we will wait until closer to the start of the school year to give us the most complete picture of your child.

For children to be able to participate in the Seedling School they must, generally, be able to: transition with the group between indoor and outdoor spaces, express basic needs and wants, follow simple instructions regarding safety, and have basic toileting and dressing skills.

Your signature indicates understanding and agreement to participate in Wild Oak's development questionnaire closer to the start of the school year.

Wild Oak Parent Questionnaire

Seedling School

Please answer the questions below. You may use a separate page if needed.

Child's Name:

General Health:

1. Does your child have any allergies?
2. Does your child have a medical diagnosis that impacts their day to day life or care they will need while at Wild Oak?
3. Do you or your Doctor have any concerns about the physical, emotional, or mental development of your child?
4. Does Wild Oak need to be aware of any special accommodations for your child to support their safety, health, and involvement with our school?

Schooling Experiences

5. Has your child been enrolled in a school or nursery previously? (Please list *all* attended.)

2. If you answered yes, tell us about the most recent educational environment. What aspects were positive? What aspects were challenging? What did your child like and dislike about the experience?

3. Has your child experienced significant struggles that resulted in disciplinary measures, behavior modification plans, or suspensions?

4. What is your view of preschool in your child's life? What would the ideal teacher/parent or home/preschool relationship look like to you?

5. What are some of your child's favorite things to do?

6. How does your child adapt to various outdoor events (getting dirty, being around bugs, inclement weather, etc.)?

7. Does your child like to read and/or being read to? What types of books do they enjoy to read or look at?
